NSP

Plan Description:

The NSP is intended to stabilize neighborhoods and stem the decline of housing values. The program calls for recipient cities and states to purchase and rehabilitate foreclosed or abandoned homes. Once these properties are rehabilitated, the City will sell them to qualified buyers that earn 120% or less of the average median income (AMI) salary. Because NSP funds must be allocated 18 months from receipt, the City Council will authorize the City Manager to execute all necessary documents and to acquire and dispose of properties related to the NSP

Recovery Needs:

NSP funds will be used to maximize and complement the Citys overall ongoing investment of providing quality affordable housing to as many Long Beach residents as possible. The funds will also the clear and pronounced effect of revitalizing and stabilizing Long Beach neighborhoods

The Citys target areas for NSP program were developed pursuant to the HERA as outlined below:

- Greatest percentage of home foreclosure;
- Highest percentage of homes financed by a subprime mortgage related loan; and
- Areas identified as the most likely to face a significant rise in the rate of home foreclosures
